

### **Compass Marketing Sponsors 5th Annual Drive for a Cure Golf Tournament**

Compass Marketing provided sponsorship in the form of goodie bags to support The 5th Annual Drive for a Cure to support Stop Autoimmunity Forever (SAF), an organization dedicated to raising funds to support research necessary to cure autoimmune diseases.

An autoimmune disease is a disease where the body's immune system has rogue cells residing right along with good cells that attack healthy tissue instead of invaders. All funds raised by SAF go directly to support the work of Dr. Denise Faustman of Massachusetts General Hospital who has cured Type I Diabetes in mice by stopping the autoimmune attack. SAF sees Dr. Faustman's work as the best hope for a real, and permanent, cure.

The 5th Annual Drive for a Cure was held on September 14, 2009 at Compass Pointe Golf Course in Pasadena, Md. Goodie bags included various products from clients represented by Compass Marketing including Blistex, Jack Links, Puffs and Tic Tac.
