

# Compass CARES

## Compass Marketing helps returning wounded soldiers feel more at home.

In conjunction with other Maryland Businesses, Compass Marketing helped completely rebuild and furnish The Maryland Room, a reception area within the Malcolm Grow Medical Center at Andrews Air Force Base.

Andrews Air Force Base is home of the President's Air Force One. Dedicated as 'The Maryland Room', the renovation included plush seating for over 20 recuperation visitors, polished hardwood floors, a 60-inch flat-screen television, high-speed internet access and computer gaming area and a fully loaded kitchen.

The area will be used by wounded soldiers from all branches of service returning from Iraq, Afghanistan and other foreign countries for relaxation and recreation, light meals and family visitations.
